Current Challenges within AABP

Gender Demographics

RESPONDENTS BY GENDER

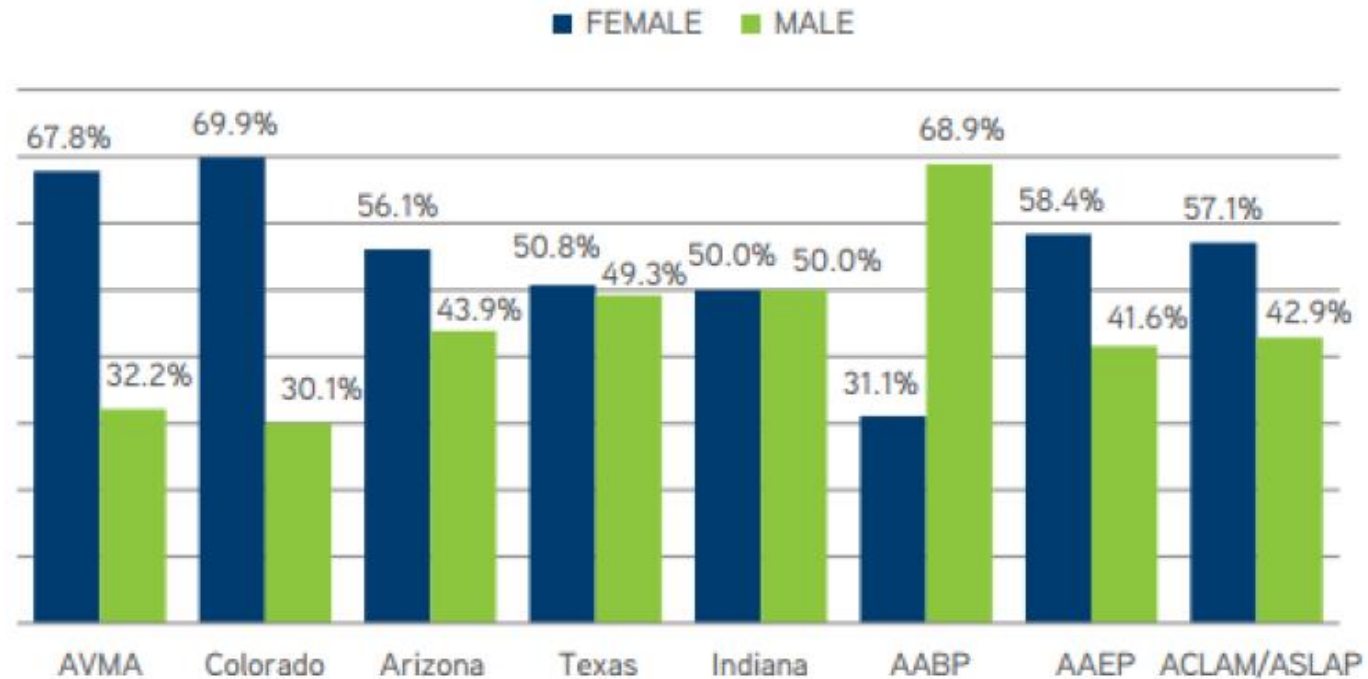

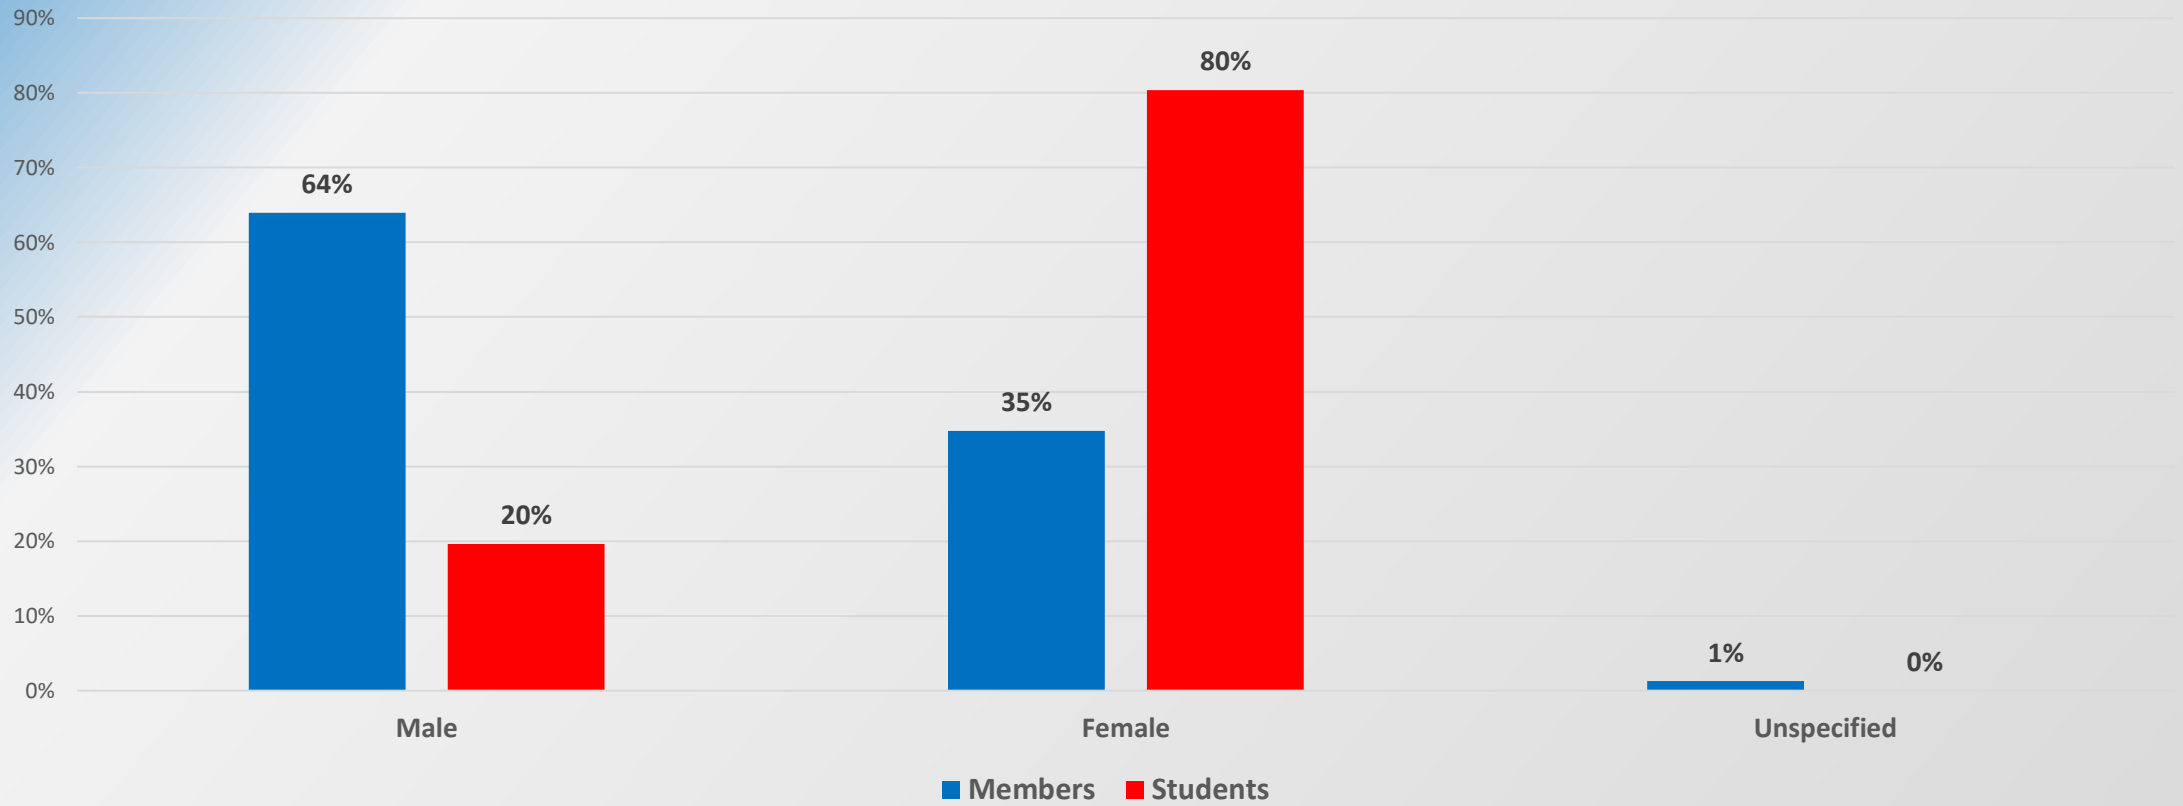

Figure 10

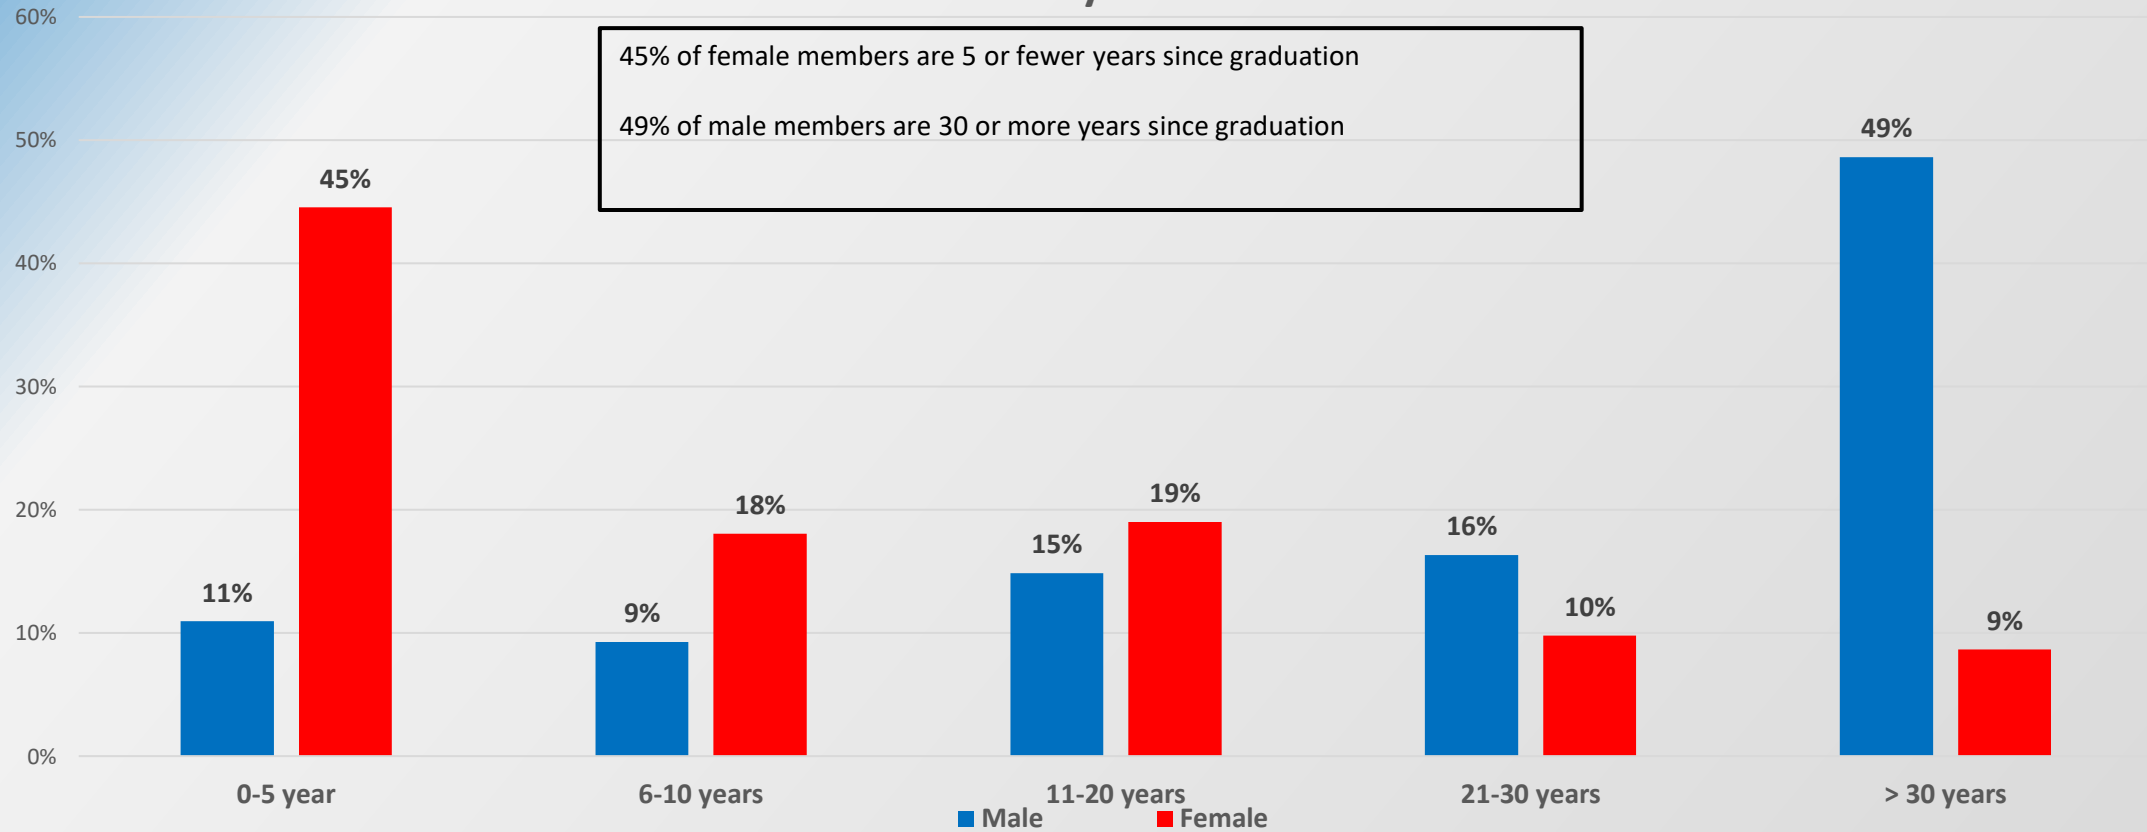

Total Membership Gender

	Male	Female
0-5 year	319	710
6-10 years	270	288
11-20 years	433	303
21-30 years	476	156
> 30 years	1417	138
	2915	1595

Gender by Grad Year

Amount of Educational Debt

Current Challenges continued

- Veterinary Shortage areas
 - Currently 221 shortage areas in US
 - What does this mean for the safety of our food supply?
 - What is the sustainability of agriculture in those areas?
 - What other agricultural resources are lacking in those areas?
- Mental Health, Suicide, Burnout
 - Educational Debt
 - Isolation
 - Support systems
 - Solo practitioners

Current Challenges continued

- Judicious use of antibiotics
- Legislation in Colorado, Oregon, NY
- Watching EU activity
- Germany-Local anesthetic use in castration of piglets no longer allowed
 - General anesthesia
 - Immuno-castrate
 - Raise intact

Banning authorized antimicrobials without scientific evidence will cause animal suffering and will endanger public health

The new Veterinary Medicines Regulation allows the reservation of specific antimicrobials for human use only. Contrary to what the European Parliament proposed motion claims, according to the Regulation, these antimicrobials will then be banned completely for use in animals, with no exceptions for individual treatment or between pet and farm animals. This would greatly endanger animal health, welfare, and even public health.

• **VETERINARIANS KNOW, CARE AND CONTRIBUTE** •

HELP US **SPREAD THE WORD** TO PROTECT THE ACCESS TO ANTIMICROBIALS IN VETERINARY MEDICINE ALSO IN THE FUTURE

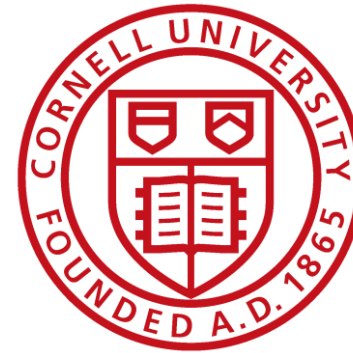

BANNING AUTHORISED ANTIMICROBIALS
FOR ALL ANIMALS WITHOUT SCIENTIFIC EVIDENCE WILL CAUSE ANIMAL SUFFERING AND WILL ENDANGER PUBLIC HEALTH
